

## Commercial

Waterman Construction specializes in Commercial Construction, as well as Custom Residential Construction.

Our customers have been pleased with our Commercial Construction projects. Unlike being forced to move into a space that is not specifically designed with the Commercial endeavor in mind. All of our Commercial Construction projects are developed from the ground up in cooperation with the client, so that the space is best utilized for their needs. We have constructed commercial buildings for the following purposes: blah blah blah.

During our XX years of commercial construction experience, we have found that development of commercial facilities built with the idea of selling or leasing to a organization post construction, tends to leave large commercial areas vacant after the business evaluates their true needs and then contracts to have a commercial building made to their specifications. We believe in doing the job right the first time.

Our primary focus in commercial construction has been Central Florida as we reside in Lake County, Florida. The towns in Lake County we build in include but are not limited to Astatula, Clermont, Eustis, Fruitland Park, Groveland, Howey-in-the-Hills, Lady Lake, Leesburg, Mascotte, Minneola, Montverde, Mount Dora, Tavares and Umatilla. We do build in other counties in the surrounding areas such as Sumter, Seminole, Orange, Marion Counties and the cities within.

When thinking of making the decision of creating a custom Commercial Construction project, that you think of doing it right the first time and use the expertise of Waterman Construction.
